Technology Assurance, Resiliency, and Managed Services

Have the best technology consultants in the business working for you!

Management Consulting

Companies often find themselves grappling with outdated technology processes, regulatory pressures and audit findings. They become overwhelmed with remediation activities, losing focus on day-to-day activities.

Our seasoned team of experts boasts an impressive tenure of over two decades in the field, each member bringing a wealth of knowledge and a proven track record of high-level consultations and rapid, efficient task execution. This depth of experience ensures that we consistently deliver results of the highest quality with remarkable speed. We are adept at providing specialized technology counsel, with a portfolio that spans a multitude of sectors.

Technology Managed Services

Leverage outside experiences. Implementing fresh ideas to grow your business.

In addition to out of the box thinking that works for businesses of all sizes, we can deliver technical solutions that meet any business need. Our managed services employ, best-in-class, technology solutions. This coupled with an inherit audit, risk and security discipline Two Fifth Consulting delivers best practice technology solutions that complement and enable business processes. Our comprehensive services, include hosting, online cyber training, 24/7 managed threat protection, and remote management, offering predictable costs and the computing resources needed to manage your company efficiently.

The Two Fifth Consulting Difference...

EXPERIENCE

Our owner has held various leadership positions with firms like Freddie Mac, TIAA, Citi, AXA, Phillip Morris and Johnson and Johnson, leading him around the world with hands-on experience from desktop installations to large scale ERP solutions. It's time to share those same experiences with companies and institutions like yours.

INSIGHT

The Two Fifth Consulting leadership team all have more than 25 years of Fortune 100 advisory experience. This insight enables us to deliver more intelligent, cost-effective solutions that work in today's environment. We won't leave you with a solution that doesn't match your environment. We actually know what works, what is secure and sustainable.

CLIENT-FOCUSED

Our mission is to allow you to focus on your core business objectives while pairing you with the best technology professionals in the business. We listen carefully and present the most effective solutions. Through proven methodologies, a high level of integrity, and high-quality services, we prioritize the needs of our clients to help them grow their business.
